

AMENDMENTS TO THE CLAIMS

The status of the claims is as follows:

Claim 1 (currently amended): A window assembly comprising, a jamb having an interior, defining a jamb pocket portion and a retractable mesh screen disposed with a roll screen cassette contained within the jamb pocket portion integral with the jamb of the assembly, said jamb and said jamb pocket portion being ~~manufactured by an extrusion process~~ as an integral unit manufactured by an extrusion process when the window assembly is formed, said jamb pocket portion being defined by three sides of the interior of said jamb, the mesh screen accumulating on and paying out from a spring biased roll provided with said roll screen cassette disposed within said jamb pocket portion.

Claim 2 (previously presented): The window assembly of claim 1 further comprising sill and header portions wherein said retractable screen is guided in guides provided with said sill and header portions of the window assembly which allows for the manufacture of heavier screens in larger sections.

Claim 3 to 9 (cancelled)

Claim 10 (previously presented): The window assembly of claim 2 further comprising grooves disposed adjacent the header and sill portions to receive an extension portion of a handle of the retractable screen also engaged with keyed edges of the screen and at the same time engaging the grooves to maintain the parallelism of top and bottom portions of the handle when in motion as the screen is payed out and accumulated in the jamb pocket provided in the jamb.

Claims 11 to 15 (cancelled)

Claim 16 (currently amended): A closure assembly comprising, a jamb having an interior, defining a jamb pocket portion and a retractable mesh screen contained within the jamb pocket portion integral with the jamb of the assembly, said jamb and said jamb pocket portion being ~~manufactured by an extrusion process~~ as an integral unit manufactured by an extrusion

Appl. No 09/740,965
Amdt. dated Dec. 6, 2004
